IRON BAR IN SELF DEFENCE.

Some very amusing passages came up in a case which Mr. R. E. Lindsell heard at the Central Magistracy this morning. Yeung Wah-shing, a foki, was charged with having assaulted Mr. Mischal Piankoff, head baker of Lane. Crawford's bakery at Wanchai. Mr. Horace Lo appeared for the defence and pleaded not guilty.

Mr. Piankoff explained that the Offensive Trade By-laws. bakery had two floors,-a ground floor and first floor. The ground floor was the cake department and the first floor was the sweet department. Witness's floor was the latter. The trouble started a little after 12.30 on Friday. There was a mixing machine downstairs and one upstairs. His was for mixing sponge as well as sugar icing. The defendant came . upstairs to use the machine, which he had no right to do. Witness told him that he could not use the machine because the motor was hot. He spoke in English and Chinese.

"All- Wrong."

Defendant then went downstairs, but returned, and, whilst witness was doing his work, started to use the machine, which was in second gear. Witness told the defendant that it was all to use the machine it was in second gear whilst pushed him off. Witness then switched the machine from second gear to first gear.

In reply to Mr. Lo, witness agreed that people from downstairs often came up to use that particular machine for mixing, but he did not want to object so as not to cause any trouble.

Continuing, witness said that the defendant then went away again, but returned with an iron bar. Then, whilst he was boiling sugar at the gas-stove, the defen- in private premises. said: "Strike Russian devil." In his cross-examination. Mr. Lo suggested that the time between when the defendant left after his first visit, and the time when he returned, was sufficient time for the machine to cool,

It has been pointed out to us that an unfortunate and regrettable error appeared in our issue of Friday in the publication of Reuter's cable regarding the alleged gunrunning plot in which it was made to appear that the Bank of China was involved. The actual words cabled were: "Instructions for Bank China" and "Informed Bank China" this being twice transcribed by us as

"Bank of China." This, we are now informed, should have read "Bank in China," which may refer to any Bank and not to the Bank of China, which naturally repudiates any connection with the gun-run-

OBFUSCATION.

The mental obtuseness of the morning contemporary to which we referred in this column a fewdays ago is truly marvellous. They frequently develop a liking for petting and behave generally like well-bred dogs, taking a fancy to their attendants and showing their love and admiration by means of good behaviour and fawning according to Mr. C. Emerson Brown director of the Philadelphia Zoological Gardens.

STATE MEDICAL SERVICE.

Dr. Graham Little's Warning.

PARTING OF THE WAYS.

The medical profession is now at the parting of the ways, declared Dr. Graham Little, M.P. for London University, in an address to the Paddington Medical Society on

September 9. A State medical service scheme "is actually in preparation under very influential auspices and may "see the light in the autumn," he said, and decisions now to be taken were even more important than those of 1912, when the National Health Insurance scheme first came into operation.

"The issue is," he said, "nothing less than whether the profession shall consent to the entire extermination of private practice and all that it means, and substitute for it one of two alternatives - (1) a practically universal contract practice; (2) a universal State medical service.

"The difference between the alternatives is perhaps not so great as it might seem. I do not think any sensible person can doubt that in contract medical practice became universal the State would dominate it as completely as any

"A Veterinary Level."

Dr. W. J. O'Donovan, prospective Conservative candidate for Mile. End, in an address at the 1912 Club said that for a slave community a medical service must be organised, but a free community would always evolve an efficient medical profession suited to its own conditions.

"In a Socialist system a provided medical service would work on a veterinary level. Through its maternity service husbands would be dissolved from the burdens of fatherhood, and children delivered in State beds would be the children of the State—an immoral proposi-

VISIT TO HONG KONG

HOW TO MAKE IT INTERESTING AND MEMORABLE.

GUIDE FOR THE TOURIST.

You don't have to be a geographer to have heard of Hong Kong. Whether you come from a "tall grass region" of the United States or from a gigantic City that has no time to bother about other places, the name will be familiar to you. After all, it is one of the greatest ports in the world, possessing an ideal harbour, which makes it eminently suitable for the extensive entrepot trade with China. As for beauty of scenery, you have the casence of the Orient cheek by jowl with views that rival Japan, the South of France, the West Coast of England, and the Highlands of Scotland. Whether or not you are to enjoy your visit depends wholly upon the manner in which you go about your sight-seeing. Below we offer to the tourist a few hints, the fruits of experience, which, if taken, will enable him to see and enjoy the best that the Colony can offer in the least possible time.

there was no recognised name for "You may go to Hong Kong for me." gardens, public and private, and the Island. The anchorage at Aberdeen (a picturesque fishing village To-day this formerly despised them bordered with bamboos and on the side opposite the Harbour) possession is one of the world's other delicately-fronded trees, and was known to sailors as Heung busiest ports and the admiration, fringed with the luxuriant growth Kong. From the sea, and lated by "Fragrant Stream" or "Fragrant Harbour." Another possible rendering is "Heung's Harbour," the haunt of a notorious pirate named Heung.

Kowloon (the mainland opposite Hong Kong) is the anglicised form of the Chinese Kau Lung (nine dragons). This name is derived from the ridge of nine hills which form a rampart along the northern side of the harbour and seem to be guarding the approach to China. You may see them from your shipquite plainly.

Hong Keng became a British Colony in 1841. In 1860 about two square miles of the mainland of Kowloon and Stonecutters' Island were leased in perpetuity. The district called the "New Territory" was leased to Great Britain in 1898 for a period of ninety-nine years. It covers 876 square miles and includes the island of Lan Tau' and the waters of the farther shores of Deep Bay and Mirs Bay. So much

for history. The Old and the New.

We shall have to begin with a enviable reputation for rainstorms, joining the residence of His Exlittle history. The central areas of the City are well built, the roads and streets are for the most part admirably made and kept up and many of the thoroughfores delightfully shaded with wellgrown trees. The European business quarter occupies the middle of the City, from Pottinger Street to the Naval Yard, but with the exception of this limited area almost all the lower levels, especially the western district, are covered by a dense mass of Chinese shops and tenements. On the mainland new industrial and residential areas are rapidly springing up.

twenty cents: Hours can be spent sauntering about in the curio shops in the middle of the City. Most of the curio dealers speak a little English. Rare and valuable objects can be secured if patience is exercised and one is not pressed for time. The average tourist on first coming to China is so thrilled with the beautiful and unusual goods offered that discretion flies to the winds; boxes and luggage are filled with a hodgepodge assertment of "things Chinese." The temptation to buy and

buy is irresistible, and on returning Home one is often filled with dismay at money squandered on the valueless and ordinary. Whereas, a few hours spent in study, while contemplating the trip, and by familiarising oneself, if only to a small extent, with the treasures crafts that each particular dynasty produced, would the tourist treblefold. Most of the firms whose advertise-

Three Tours. Great credit is due to the Government of Hong Kong in providing splendid motor roads, which make motoring a pleasure. Below we append three trips around the island, all of which are easily accessible and have been drawn up so as to give the visitor a fair indication of the beauties of the

Tour 3. Distance sixty miles; Time 31/2 hours. Commencing at Kowloon Ferry via Castle Peark, Fanling Golf Course, Taipo and Shatin, finishing at Kowloon Ferry.

Round the Island What has been well described as one of the most magnificent drives in the world is that by motor car round the Island. The route followed is from Queen's road Central, thence into Garden-road, past Government House and the Botanic Gardens, along Caine-road, Bonham-road, past the University of Hong Kong, along Pokfulam-road, Aberdeen-road, and Repulse Bay where a stop can be had for refreshments or the more enjoyable tiffin. Leaving Repulse Bay Hotel the journey is proceeded with to

Taikoo Dock is reached, and from there it is a very short drive back to the original point of departure. The entire drive covers a distance of 26 miles, but the scenery en route cannot adequately be described in mere prose. It has to be seen to be appreciated as it deserves. Next to the ascent and descent of the Peak it is a trip that no tourist should omit from his pro-

scenery, there is much to entertain, amuse and instruct without resort shops and Indian stores cannot well be passed over by those in search of novelty or for a souvenir of their visit to this enchanted Isle. There is "China Town," teeming with thousands of Chinese living in narrow streets where one can almost stretch hands across "thoroughfare," and where glimpses may be had of typical Chinese life in all its varied

A good combination is a bus or Shatin. motor car drive to Aberdeen (already referred to) and a tour through the Chinese fishing village. If time permits there is also a quaint little hamlet, Applichau, which can be reached in a few minutes by sampan. The return journey from Aberdeen can made by launch, in which case the scenery fringing the harbour approaches will be found very refreshing after the spell through the Chinese quarters of Aberdeen and Applichau.

For the individual who cares not for the joys of motoring a casual walk through the heart of the city will reveal much of interest in the of public buildings and statues, including-although some way out-the University of Hong Kong. The Seven-Eyed "Kwanyon" exhibited at

MESSRS. KOMOR & KOMOR.

The Scuiptor of China is the oldest art we know and lately figures and mimals have been found which are so perfect in design and life-like attitude that they well compare with the best period of Greece. There is a pair of "Kwanyon" exhibited at Messrs. Komor & Komor's art gallery, corner of Ice House Street and Chater Road and Thibetian origin supposed to be of the Sung Dynasty A.D. 959-1273. They are 4 feet high and wonderfully preserved. The right hand to right knee suggests "I swear by the earth," "The left hand with the eye upwards in attitude of teaching 'denotes'

Keep to my instructions.

It is remarkable what influence these figures have on everyone who sees them. Ladies, especially, seem to be hynotised and come again and again to see them and, as they say, feel happy and contented after gazing at the Kwanyon.

It is said that Buddhistic figures influence certain persons and according to Chinese belief a Buddhistic figure which fascinates you is sure to bring luck, health, and happiness to you if you possess it and the great-sage Mr. Komor tells some remarkable authentic stories of Buddhas which changed the life of many people through the influence of Buddhistic figures.

It may be the pleasing features or artistic attitude which suits the nerves and we would recommend you if you feel nervous or you are out of luck to go and see Messrs. Komor and Komor's well known art gallery and find out what truth there is in this Oriental superstition.

Komor & Komor's art gallery is open from 9 a.m. to 5 p.m. one block from Hong Kong landing of the Kowloon ferry.

As the various parties are restricted in number, party allotments will be made in the order in which applications are received.

Take the "rabbit" out of the gan and what would happen? Clu would close their doors; golf cours could not support themselves; go club makers would go into bankruptcy; sports dealers would have to reduce their staffs, and makers of the delectable fluids dispensed at the nineteenth would quickly feel the draught. Yes, the long handicap man is the man who actually that counts, although one would not think it .- H. J. Chapman.

CRAIGENGOWER WIN.

The Indian R.O. 2nd XI followed up their success of a week ago. by again winning in a League match on Saturday, this time at the expense of the Club de Recreio. The latter are regarded as a very strong combination and the I.R.C. victory will, therefore, make them serious contenders for the championship, although it is yet too soon

to make any forecasts: The Craigengower C.C. 2nd XI, with a vastly improved side, easily defeated the Royal Army Service Corps in their initial game ...

Of the friendly fixtures, the Hong Kong C.C.-Army match provided a rather peculiar finish, as it was not known that the game was drawn until a check was made on the

score-book. The wickels, generally speaking. played easily, but several noteworthy bowling feats were recorded, the most remarkable being R. Sourbutta's nine wickets for 25 runs against the_R.A.S.C.___

"THE ROGUE SONG" ORIGINAL STORY.

TIBBETT'S SUCCESS.

When the announcement was made. some time ago that Lawrence Tibbett, noted baritone of the Metropolitan Opera Company, had been placed under contract had Metro-Goldwyn-Mayer to star in an operatic all-talking picture entitled "The Rogue Song," the question rose on every side, "Will sound films offer outstanding youal artistes a new outlet for their

talents?" Now that the production has been completed and being shown at the Queen's Theatre, the general public will have a better opportunity to judge for themselves as to the answer to that question.

Lionel Barrymore, who is himself recognised as a ranking musician and composer, directed Tibbett in "The Rogue Song." Original plans as director, but Leonard was unable to complete the final editing of "Marianne," Marion Davies's film, in time to make preparations for the new production, which had to be finished in time for Tibbett to make a concert tour before the opening of the Metropolitan Opera sea-

That, in a sentence, is "Lilac, Time:" First National's great new special picture, starring Colleen Moore, now showing at the Majestic Theatre, Kowloon.

"Lilac Time" is truly great, and Colleen Moore is brilliant in a role that rises to emotional heights. This clever little comedienne, who sprang to fame in the. flapper pictures of a few years ago, is justly entitled to a place among the best dramatic actresses of all time as the result of this great role in the picturisation of the stage play by Jane Cowl and Jane Murfin.
